Recommended for business owners who want a fully-featured and economical Web hosting account. Managed hosting gives your company the ability to focus on developing rich content rather than maintaining servers. Tovani's technicians will assist with website installation and setup.

Tovani servers are located in secure data centers and are monitored 24/7. Your data integrity is important to us. All servers are backed-up nightly to prevent data loss. Customers are also given access to all data and logs via FTP access.
